**RE: SCP Carlstadt-De Minimis Settlement**

Dear Ms. Cristiano:

I have received a letter from Susan Hoffman advising that the United States Environmental Protection Agency requires that parties to the De Minimis settlement identify the type of hazardous materials sent to the SCP Carlstadt Site. The Attachment to that letter indicates that EPA does not have such information for Inland Steel Container. On August 7, 1996, I sent to you copies of the manifests which allegedly indicate that material was shipped from Inland Steel Container to the Site. Those manifests list the material as "paint sludge" and "solvents".

Very truly yours,

*Michele M. Gutman*
